

A Visual Inventory John Pawson

"DARK is all about the details that have been seamlessly worked into the function of the lamp. It's all aluminium construction provides lightness, making it an easy-to-use everyday task light,"

Head of Design, Nital Patel

DARK collection / Design: Nital Patel
IF Award Winner 2023

DARK is simply pure form, pure function!

DARK is the result of nearly two years of design and technical development and is quintessentially an example of the maxim *form follows function*. DARK works optically, spreading light further, wider and softer. The optics also provides glare free light, eliminating annoyance to the eyes, making it a comfortable work light.

DARK collection consists of two table lamps, a floor lamp and a wall lamp and is available in a range of premium anodised colours. The collection comes with a number of accessories including a table base, wall mount and clamp.
